MAGTAPING

THE REINFORCED DOUBLE-SIDED TAPE FOR SAFE AND INSTANT INSTALLATION

MagTaping is the professional solution for fast and secure installation of MagFlexMat and MagFace. Its extra-strong, instant adhesion ensures maximum hold even on challenging surfaces, delivering immediate walkability and excellent load resistance. Solvent-free, low-emission certified, and ready to use, MagTaping is ideal for both temporary and permanent installations, indoors and outdoors. Perfect for trade shows, showrooms, events, and residential or commercial spaces, it combines practicality, safety, and reliability in one product.

- Reinforced double-sided tape with mesh structure
- Roll size: 65 mm width x 100 m length
- Instant grab with extra-strong adhesion
- High resistance to vertical loads
- Certified EMICODE EC1 PLUS (very low emissions)
- Solvent-free, odorless, safe for enclosed spaces
- Resistant to humidity and plasticizers
- Immediate walkability after application
- Temperature resistant (-40°C / +110°C)
- Easy and fast application with pressing roller
- Suitable for temporary or permanent solutions
- Non-toxic, ROHS and REACH compliant
- Ready to use, shelf life up to 24 months
- Coverage: 5 linear m/m² for flooring – 7 linear m/m² for wall cladding or countertops
